A Structured Approach for Assessing the Normal and Abnormal Fetal Heart

Presented by Ann Quinton

Program

- 8.30 am Registration
- 9.00 am **Assessment of the normal fetal heart**
This session will teach a novel approach for evaluation and application of practical skills for routine assessment of the heart and will progress to include advanced fetal echocardiography views.
- 10.10 am **Abnormalities of the 4-chamber view**
The skills learnt from assessing the normal 4-chamber fetal heart will be applied to various anomalies of the 4-chamber heart.
- 11.20 am Morning tea
- 11.50 am **Abnormalities of the outflow tracts**
Skills learnt from assessing normal outflow tracts of the fetal heart will be applied to various anomalies of the outflow tracts.
- 1.00 pm Live Scanning, feedback and questions
- 1.30 pm Finish

About the presenter

Dr Ann Quinton is a senior sonographer who has worked in Fetal Medicine Units for 20 years scanning the fetal heart. She is currently unit coordinator teaching Fetal Echocardiography at a postgraduate level at CQUniversity. She has presented widely nationally and internationally on the fetal heart.
