

2020 travellingworkshops

MSK – Nervous Hands and Feet **Presented by Stephen Bird**

Program

8.00 am Registration

8.30 am **Hands & Wrists**

This presentation will outline a logical 4 quadrant approach to examining the wrist joint, resulting in a comprehensive assessment protocol. It will include all key structures and will focus your attention on a few new ideas to add to your repertoire. The hand section will look at clinical presentations and the appropriate ultrasound approach to establish a diagnosis.

10.00 am **Feet & Ankles**

This presentation will look at a variety of common ankle and foot presentations including assessment of inversion injuries, pes planus and lateral ankle pain. The ankle is a complex joint and this presentation will expand your technique adding additional structures to your current technique. We will also discuss assessment of metatarsalgia and the wide variety of possible causes.

11.30 am **Morning tea**

12.00 pm **Nerves**

This session will be interactive with the audience asking for advice about specific nerves. I hope it will include some commonly examined nerves as well as perhaps a couple of less common options. I will have material available on most nerves we are asked to examine with ultrasound and will share my ideas tips and tricks.

1.00 pm Live Scanning, feedback and questions

1.30 pm **Finish**

About the presenter

Stephen Bird is a general sonographer with over 25 years of clinical experience. He is currently working at Benson Radiology in South Australia. He holds a General and a Vascular DMU and a Masters of Medical Sonography from the University of South Australia. He is a passionate educator, presenting regularly at national and international conferences as well as conducting weekend workshops for diagnostic medical ultrasound professionals.
